61st St., West of Broadway, N.Y.

Say Ben-Gay for Headache

Say Ben-Gay at any drug store and you will get a tube of the original French Baume Bengue (Analgésique), then use as follows: apply hot wet cloth to forehead and back of neck—after drying, rub Baume using gentle circular movements. Keep a tube handy for Sore Throat.

THOS. LEEING & CO., NEW YORK

Cuticura Promotes Good Hair

Treatment: At night rub Cuticura Ointment into partings all over the scalp. Next morning shampoo with Cuticura Soap and hot water. Repeat in two weeks.

Sample Each Free by Mail. Address: "Cuticura Laboratories, Dept. 500, Malden, Mass." Send no money. One tube of Cuticura Soap and one of Cuticura Ointment.

BANTON SAYS I. R. T. MAY BE PROSECUTED

Advices Mayor Action Should Be Taken in a Magistrate's Court.

SEEKS SPECIFIC CHARGE

Would Move Under Transit, Not Penal, Law: Receivership Case Drags.

District Attorney Banton, replying yesterday to Mayor Hylan's recent suggestion that inadequate service rendered by the Interborough Rapid Transit Company might warrant criminal action proceedings by the city, said that the matter should be taken into a magistrate's court rather than be presented to a Grand Jury. He added that a specific sworn complaint must be lodged against the company by the Mayor, a police officer or some other person before any action could be taken. Also that any such complaint must be accompanied by a statement from the Transit Commission to the effect that one or more of its orders had been violated.

On March 23 Mayor Hylan wrote to Mr. Banton requesting him to determine if the Interborough's inadequate service did not justify presentation to a Grand Jury "as a menace to the life, health and safety of the traveling public and amounting to a serious public nuisance." He also asked the District Attorney if, under section 530 of the Penal Law the company was not guilty of criminal conspiracy "to commit an act injurious to the public health and to public morals."

Mr. Banton referred the Mayor's communication to Judge Robert S. Johnson, then an Assistant District Attorney, and John C. Myers, another assistant, constituting the Appeal Bureau. Their report was forwarded to the Mayor yesterday with a letter from Mr. Banton summarizing their findings. "You will notice by referring to the memorandum enclosed," the letter stated, "that the Public Service Commission law contains provision of a penal nature, and, without deciding that these provisions are exclusive, the members of the Appeal Bureau are of the opinion that it is more desirable to proceed pursuant to the terms of the Public Service Commission law rather than to proceed under the provisions of the penal law."

Mr. Banton said that procedure before a City Magistrate would be just as effective to bring the offenders to justice as would presentation of the case to a Grand Jury. He said the former was much more simple and would place the case, if upheld by the magistrate, in the Court of Special Sessions. Conference continued yesterday between the Interborough Rapid Transit Company and the stockholders' protective committee of the Manhattan Railway Company relative to a settlement of the rentals paid by the Interborough for the elevated lines. The question of receivership proceedings still hangs in abeyance. The hearing on the Interborough service is scheduled to be continued this afternoon before the Transit Commission, but owing to the urgency of the negotiations with the Manhattan line it is believed the Interborough officials will request another postponement. The commission awarded a contract for the completion of the Lawrence street station of the Montague street tunnel line. The successful bidder was Frederick L. Cranford, Inc., whose estimate was \$342,510.

Refuses \$1,000 Reward Returning Lost \$3,500

MRS. MARY DUSCHOWSKI of 27 Mott street, Newark, who lost \$3,500 she was carrying in the hem of her skirt last week, yesterday reported to the Newark police that an unknown man had returned it to her. The woman said the man refused to accept \$1,000 reward she had offered. When she recovered from her shock she offered him \$400 and that he took, she said.

MANY BACK SCHOOLGIRL IN THE 'LIPSTICK' CASE

Pearl Pugsley Expulsion Suit Up in Court To-morrow.

CORNING, Ark., April 4.—The "lipstick" case at Knobel, Ark., in which Miss Pearl Pugsley, 18 years old, seeks a writ of mandamus to set aside rules of the Knobel school board forbidding students to use cosmetics, wear low and peek-a-boo waists and short skirts, is set to come up before Judge W. W. Bandy in Clay County Circuit Court here on Thursday. Miss Pugsley was dismissed from the elementary school at Knobel because she violated the rules, according to N. E. Hicks, principal. The girl and her friends claim that she had only talcum powder on her face.

Miss Pugsley has received thousands of letters from all parts of the country and from persons in all walks of life sympathizing with her on the question.

WHALEN MOPES TO GET 9 FERRIES AT \$350,000

Money Authorized, Though Company Refuses.

The Board of Aldermen voted yesterday to permit Grover A. Whalen, Commissioner of Plant and Structures, to buy without public letting the nine aged ferries of the Union Ferry Company for \$350,000. He acknowledged they were from thirty-one to fifty-nine years old, but thought they had from five to twelve years of usefulness left. The company had refused to sell the boats at his figures, preferring to lay them up at Great Neck, but he was hopeful of changing this decision. Ferry service had never paid, he admitted, but the routes the Union Ferry Company was about to abandon, Fulton, Hamilton and Atlantic ferries, all between Brooklyn and Manhattan, were important for freight transportation and should be kept running. All the city hoped to do was to pay expenses.

HATCH LEADS ROTARIANS.

The annual meeting of the Rotary Club of New York was held last night in the Hotel McAlpin, after a dinner at which Raymond J. Knoepfel, president of the club, presided. The following officers were elected: Robert L. Hatch, president; Thomas C. Miller, first vice-president; Edward P. Chalfant, second vice-president, and Dr. Fred B. Sutherland, treasurer. Thomas A. Dwyer, J. J. Goldman and Raymond J. Knoepfel were elected directors for two years, and J. Samuel Smoot a director for one year.

It was announced that the retiring president, Mr. Knoepfel, had received the unanimous endorsement of the Eastern delegates at Trenton last week in his candidacy for international president in the election in June in Los Angeles.

TO REBUILD FRENCH TOWN.

PARIS, April 4.—The Carnegie Foundation has donated \$150,000 toward the reconstruction as a model city of the town of Fagnieres, Department of the Aisne, eighty miles from Paris, destroyed during the war. It was announced today by Baron D'Estournelles de Constant.

MOVE BY CONGRESS TO END COAL STRIKE

Continued from First Page.
"minds," said Dr. F. C. Hennold, secretary of the Illinois Coal Operators Association, to-day when informed of the action of the House Labor Committee.

FRICION OVER MINE MAINTENANCE GUARDS

Independents Accused of Displacing Union Men.

SHAMOKIN, April 4.—Charges that independent coal operators in the Shamokin-Mount Carmel region were laying off union workers engaged in firing boilers and running fans, engines and pumps and replacing them with monthly workers who are not affiliated with the mine workers' union was the only development of the anthracite mine suspension here to-day.

Officials at district headquarters said their inquiries indicated that the Susquehanna and Reading companies, the two largest operating corporations in the region, were complying with their agreement regarding employment of maintenance men. There was evidence, however, they said, that some independent operators were removing union men and filling their places with clerks, foremen and fire bosses.

HARTLETON, April 4.—Mine committees of District 7 met to-day with the superintendents of the Lehigh Valley and Lehigh and Wilkes-Barre Coal Company division here relative to mine bosses and monthly salaried men taking the places of mine workers during the suspension. At the close of the meeting it was announced that the superintendents had agreed that the bosses and other employees would be removed to-morrow and that regularly employed members of the union would be returned to their posts.

This is in accord with the agreement under which the miners' organization permits men needed for maintenance of coal property to remain at their posts in the suspension period with a retroactive agreement as to terms of the new wage contract.

Producing Some Anthracite.

SCRANTON, April 4.—Some coal was produced at two places here to-day notwithstanding the suspension order of the United Mine Workers of America. In West Scranton David Thomas operated a small mine which is taking coal from a surface vein in a limited tract, and Thomas Quinn operated a washery at Dunmore which produces 120 tons a day of washery coal.

Miners were pleased with the offer made by the Grove Hill Company of Beckville to pay the new scale asked by the union. Local coal operators did not attach any importance to the proposal, declaring the company's mine is a small affair.

WILKES-BARRE, April 4.—The Anthracite tieup remained complete and peace reigned in the Wyoming valley to-day. Local companies adjusted the dispute over the employment of exempted union maintenance forces and orders were issued that the placing of monthly men and petty mine bosses in their places was to cease.

Miners at Pittston, at a mass meeting to-day, voted loyalty to the union chiefs and denounced alleged radicals for the distribution of literature designed to cause dissension in the union fields.

Non-Union Men Stick.

ALTOONA, April 4.—Reports received by the Central Pennsylvania Coal Producers Association, to-day, showed no additional non-union miners in the central Pennsylvania field had joined the strike, officers of the Association announced.

CHARLESTON, W. Va., April 4.—The Winding Gulf Operators Association an-

nounced that only four of its fifty-eight mines in that field were closed. In the fifty-four working mines more men were employed to-day than yesterday, it was said.

HAYWOOD RECRUITING MINERS FOR RUSSIA

Scouts of 'Big Bill,' Coal Baron, Engaging Strikers.

Because of the coal strike hundreds of skilled Russian miners are leaving this country in response to invitations from agents of "Big Bill" Haywood, according to C. J. Golden, president of District No. 9, United Mine Workers of America, located at Shamokin, Pa.

Following a wage conference at the Union League Club yesterday Mr. Golden said:

"William Haywood plans to operate a huge coal concession under the Soviet. His scouts have been circulating in the anthracite regions for several weeks, recruiting skilled workmen. He wants 7,000."

Already, it is said, 500 have come to New York from the closed mines of northeastern Pennsylvania en route for Russia.

FEDERAL GRAND JURY TO HEAR LABOR CASES

Unions Not Obeying Injunction to Be Prosecuted.

Federal investigation of alleged irregularities in the building trades as disclosed by the Lockwood committee will be continued by the April Grand Jury, which was sworn in yesterday in the United States District Court.

Maxwell S. Mattuck, Assistant United States District Attorney, examining the talesmen, asked whether they were prejudiced for or against labor unions, and similar questions were proposed by Miss Susan Brandeis, special counsel to the Government in the prosecution of Sherman anti-trust law cases.

D. L. Podell, Federal prosecutor, said the local chapters of the Bricklayers, Masons and Plasterers International Union had been advised that they must comply with a recent injunction order by Judge Learned Hand requiring certain reforms recommended by the Lockwood committee, and proceedings would be instituted against those that had not already done so.

Locals 24 and 37 met last night at the Labor Temple, eighty-fourth street and Second avenue, and adopted resolu-

tions objecting to the injunction as a violation of their freedom as law abiding trade unions to conduct their affairs in their own way.

The Building Trades Council yesterday suspended Plumber Local 483, because of its failure to send twelve members back to work on a job at the power house at 144th street and East River. The men struck without au-

thority. The Altmair Construction Company is the contractor.

WANT BIBLE IN SCHOOLS.
HELENA, Mont., April 4.—The proposal to authorize the study of the Bible by high school students and to give regular credits for it was discussed to-day by the Montana Board of Education at a meeting.

HANAN SHOES

for Men

for Women

Fine Shoes are never expensive to own. They fit the foot. Their lines of grace, admired in the window, are retained in wear. Your pleasure in their possession is renewed every time you put them on or take them off. Hanan and Fine Shoes are one-and-indivisible in the public mind.

ELEVEN SHOPS THROUGHOUT GREATER NEW YORK

"As revolutionary as science***as reactionary as the multiplication-table"

—Calvin Coolidge

THESE WORDS should be chewed and digested by all leaders of thought — teachers, statesmen, presidents of companies, labor leaders, editors.

The *Tribune* likes that motto and endeavors to apply it. So, while the statement of an editorial credo is too expansive a task for this space, we will tell you a few of the things the *Tribune* believes.

We are unshakably of the opinion that two plus two will always equal exactly four.

We hold that the law of supply and demand is still unrepealed, in spite of the doubts evinced of its validity by certain groups in North Dakota and in Russia.

We think that evolution evolves and will continue to do so.

We believe that most men, other things being equal, prefer kindness to cruelty, truth to lying, and squareness to stealing.

We try to keep propaganda out of our columns, as we try to keep influenza out of our offices.

If you think these ideas are sensible, you will probably like to read the *Tribune*.

Not Her Fault But why not keep teeth white?

Does your dentist ever show you the film-coats on your teeth? His vigorous polishing is largely done to remove them.

Millions find that these film-coats form despite the daily brushing. But now there's a way to combat that film, and we offer you a test.

What film does

Film starts as a viscous coat. You can feel it now. It clings to teeth, enters crevices and stays. It absorbs stains, making the teeth look dingy. It forms the basis of tartar. Thus the luster of the teeth is kept dimmed.

Film holds food substance which ferments and forms acid. It holds the acid in contact with the teeth to cause decay. Germs breed in film, and they, with tartar, are the chief cause of pyorrhea.

Thus most tooth troubles are now traced to film. They are due to the fact that old ways of brushing do not effectively combat it.

The new-day way

Dental science, after long research, has found two ways to fight film. Careful tests have amply proved them. Now leading dentists, here and abroad, advise their daily use.

Pepsodent
REG. U.S. PAT. OFF.

The New-Day Dentifrice

A scientific film combatant, combined with two other modern requisites. Now advised for daily use by leading dentists everywhere. Supplied by druggists in large tubes.

Both are embodied in a dentifrice called Pepsodent—a scientific tooth paste. To millions of people it is bringing whiter, cleaner, safer teeth.

Five benefits

Pepsodent brings other desired effects. It multiplies the salivary flow. It multiplies the starch digestant in the saliva. That is to digest the starch deposits which may otherwise cling and form acids.

It multiplies the alkalinity of the saliva. That is Nature's agent to neutralize acids, the cause of tooth decay.

In these natural and effective ways, Pepsodent combats twice daily the great enemies of teeth.

Watch it act

The results are quick and apparent. You can see and feel them.

Send the coupon for a 10-Day Tube. Note how clean the teeth feel after using. Mark the absence of the viscous film. See how teeth whiten as the film-coats disappear.

The test will be a revelation. It has brought to millions a new era in teeth cleaning. Learn what it means to you.
